

6 & 9 Grasswren Tours

Australian Outback - 7/12 Days

Grasswrens are amongst the most sought-after bird species in Australia by visiting and local birders alike. Join our flagship Six Grasswren Tour to see these and other wonderful outback bird species! A high-paced birding trip targeting 6 species of Grasswren in the South Australian Outback:

- Striated Grasswren in the Bookmark Biosphere;
- Short-tailed Grasswren in the Flinders Ranges;
- Western Grasswren on the Eyre Peninsula;
- Thick-billed Grasswren in the Strzelecki desert;
- Eyrean Grasswren in the Strzelecki desert or Birdsville track; and
- Grey Grasswren in the Bulloo River overflow or Goyders Lagoon.

Other good species targeted during this outback birding trip are Red-lored Whistler, Black-eared Miner, Pied and Grey-fronted Honeyeater, Chestnut-breasted and Banded Whiteface, Chestnut and Cinnamon Quail-thrush, Crimson, Orange and Yellow Chat, Gibberbird, Ground Cuckoo-shrike, Letter-winged Kite, Grey Falcon and many more.

The tour will take us up the Birdsville or the Strzelecki track. A 5-day extension through the outback will take us to Mt Isa and Alice Springs, to add Kalkadoon, Carpentarian and Dusky Grasswren.
